- 

### SKILLS

Languages:Python, Shell Scripting

Platform/Tools:AWS, Kubernetes(Helm Charts), Docker, Git, Github Actions, Terraform, MLFlow, Ollama , HuggingFace

Concepts: CI/CD, ML, DL, LLM, Infrastructure as code(Iac)

### EDUCATION

<b>VIIT, Pune</b> - BTech - CSE(Artificial Engineering Machine Learning)	2022 – 2026 (ongoing)	CGPA – 7.8
<b>K.V.P.School, Junnar &amp; Jr Clg</b>	2020 - 2022	HSC - 89.0%
<b>K.V.P.School, Junnar &amp; Jr Clg</b>	2009 - 2020	SSC – 85%

### PROJECTS

**Leaf Disease Detection & Suggestions** - CNN, OpenCV, LLaMA2 (7B), Streamlit, Docker, Terraform(Iac), AWS EKS, GitHub Actions

- A ML model which detects leaf diseases and gives suggestions to prevent and cure it. Just upload a leaf picture or click it with your camera.
- Deployed it on AWS EKS, Terraform, Github Actions, Docker.

**AI Interview Preparation Tool**- Python , Transformers , Ollama, LLM

- An AI Interview Preparation tool which takes users' interviews on any domain and role , with real time feedback .

**Weather Forecast using** - Python, AWS, ECS, Docker , EKS, Terraform(Iac),Github Actions

- A simple Weather app , Automated deployment using CI/CD.

**Face Emotion Recognition**- Python, CNN

- A ML model which can detect Real time face emotions.

**Terraform** - Best Practices of Terraform

- Using Terraform created EC2, Security Groups, VPC, EKS, ECR , etc Terraform Modules also created Spotify Infra using Terraform.

### EXPERIENCE

**AI Interview Preparation Tools**

**MLOps Intern**

- Worked on creating an Interview Preparation tool for a major Education Platform.
- Learned about various types of LLMs.

### AWARDS/CERTIFICATIONS

- **Udemy**: Machine Learning A-Z: AI, Python & R
- **COURSERA**: IBM DevOps and Software Engineering, Deep Learning Specialization
